

JOB DESCRIPTION

Job Title:	LECTURER (L) in Mechanical Engineering	Grade:	AC2
Department:	School of Engineering	Date of Job Evaluation:	
Role reports to:	Head of School or nominee		
Direct Reports	None		
Indirect Reports:	None		
Other Key contacts:			
<p>This role profile is non-contractual and provided for guidance. It will be updated and amended from time to time in accordance with the changing needs of the University and the requirements of the job.</p>			

PURPOSE OF ROLE:

To conduct high quality research and teaching on undergraduate and postgraduate programmes in the area of Mechanical Engineering and specifically Structural Mechanics and/or Mechanics of Materials. The role will focus on delivering high quality education in a variety of formats as well as research and enterprise activities. The person appointed will be expected to:

- Contribute to the delivery of existing teaching, course development and to participate in the research carried out in the School
- Contribute more widely to the design and delivery of teaching activities, reflecting the successful candidate's own subject specialism appropriate for the needs of a diverse student body; across the range of courses offered by the school
- Engage in research and professional practice across the subject area and contribute to the research profile of the School.

KEY ACCOUNTABILITIES:

Team Specific:

- Contribute to the delivery of high quality, innovative and effective teaching and new teaching initiatives, including inclusive approaches to setting and marking assessment.

- Lead on personal and academic tutoring of undergraduates.
- Lead and support others in the design and development of new programmes / modules demonstrating excellent curriculum design.
- Contribute to curriculum development within the school.
- Contribute to subject, professional and/or pedagogical research leading to the publication and / or dissemination of original work.
- To contribute to the development of funding bids which contribute to the acquisition of internal and external resources to fund research, enterprise or teaching projects.
- Contribution to the continuous improvement of the student experience or lead programmes / modules effectively including adopting a responsive approach to students.
- Effective cross working with Professional Services to support students.
- Contribute to relationship management and engagement with key external bodies for teaching at a regional and national level, the national or regional public / cultural sectors / business, industry / professional bodies in relation to teaching, research or enterprise.
- Maintain effective, high quality and productive working relationships with professional bodies and employers.
- Supervision of undergraduate and postgraduate students.
- Work with other academics and the administrative teams to deliver excellent student care and support student success and employability.
- Contribute to the general academic administrative work of the school and Faculty.

Generic:

- Assist the Engineering Team in achieving the School's KPIs.
- Contribute to School plans, activities and efficient working practices.
- Participate in visit to schools, local community groups, public engagements and related activity.
- Demonstrate a commitment to equality, diversity and inclusion through teaching practice and / or engagement with University initiatives.
- Contribute to peer review and school based teaching development activities.
- Promote your work and represent your discipline and the work of the University internally and externally, and take a proactive approach to ethical, good practice.

Managing Self

- Develop expertise in inquiry / research-informed teaching with an increasing degree of autonomy.
- Keep abreast of developments within the field and seek continuous improvement of own professional practice.
- Actively participate in established professional development framework activities.
- Behave in a manner which reflects the University values and creates a positive environment for work and study.
- Maintain a high standard of student engagement and satisfaction.
- Seek to maximise the learning outcomes of students.

Core Requirements

- Adhere to and promote the University's policies on Equality and Diversity and Information Security.
- Ensure compliance with Health & Safety and Data Protection Legislation.
- Support and promote the University's Sustainability policies, including the Carbon Management Plan and carry out duties in a resource efficient way, recognising the shared responsibility of minimising the University's negative environmental impacts wherever possible.

Additional Requirements:

Any other duties commensurate with the post and grade as agreed with the Head of School and the PVC of the Faculty.

KEY PERFORMANCE INDICATORS:

Performance Indicators will be established in consultation with the Head of School as part of the post-holder's annual Appraisal and Professional Development Review.

KEY RELATIONSHIPS (Internal & External):

Working with colleagues in the programme teams and School to deliver against the School's agenda. Working with colleagues from across the Faculty to support broader Faculty priorities. Externally, working with feeder schools / colleges, industry, and professional bodies.

PERSON SPECIFICATION

Essential

Experience

- Delivery of teaching in the HE sector ideally in the UK at undergraduate and / or postgraduate level in the field of Mechanical Engineering.
- Experience and specialist knowledge in Structural mechanics and/or Mechanics of Materials
- Conducting high quality, innovative and effective teaching on postgraduate and undergraduate programmes.
- Leading courses/modules effectively including adopting a responsive approach to students.
- Leading and contributing to subject, professional and/or pedagogical research and other scholarly activities in

Desirable

Experience

- Postgraduate teaching / supervision.
- Experience and specialist knowledge in FEA
- Experience and specialist knowledge in Engineering Design
- Creating professional / community partnerships.
- Ability to teach across disciplines.
- Leading on external accreditation activity.
- Designing and leading significant teaching and assessment activity.
- High quality publications.
- Initiating the development of Research bids.
- Relevant industrial experience
