

**Job Description:**

Job Title: Student Simulation Demonstrator

Contract Type: Part-time (up to 20 hours per week)

Location: Avery Hill & Medway Campus

**Overview:**

We are looking for third-year pre-registration healthcare students to support the design and delivery of healthcare skills and simulation sessions for first- and second-year students. The successful candidates will work closely with discipline specific academics in their own field of practice team and facilitate simulation- and skills based training sessions and supporting students in their learning.

**Responsibilities:**

Work with the simulation and academic team to plan, develop and delivery simulation-based training sessions for first and second year students

Facilitate simulation sessions and provide support to students during training.

Support feedback and debriefing sessions to help students reflect on their performance and identify areas for improvement.

Collaborate with other healthcare professionals to develop and improve simulation-based training.

**Person Specification / Qualifications and Experience:**

Third year pre-registration healthcare student

Experience in skills or simulation-based training is desirable but not essential.

Knowledge of healthcare practices and procedures

**Skills:**

Excellent communication and interpersonal skills

Strong organizational and time management skills

Technical proficiency in operating simulation equipment and software

Strong leadership and teamwork skills

**Personal Attributes:**

Enthusiastic about healthcare education and mentoring

Flexible and adaptable in responding to changing circumstances

Empathetic and supportive towards students

A strong commitment to high-quality healthcare education and training
