Other Key contacts:	Bruce Alexander (SoS), SFT Senior Research Fellow, Health and Safety Managers, Laboratory Support Managers, Technical Staff		
<p>This role profile is non-contractual and provided for guidance. It will be updated and amended from time to time in accordance with the changing needs of the University and the requirements of the job.</p>			

PURPOSE OF ROLE:

To main purpose of the role is to conduct independent high quality research and enterprise in the area of surfactant science. The person appointed will be expected to:

- Engage in independent research and enterprise in the area of surfactant and polymer solution characterisation and in so doing contribute to the research profile of the Department/School and to the 2028 REF submission of the Materials research group
- Contribute research leadership in a subject area and help build the reputation and impact of that research across the faculty, University and more widely
- Contribute to the delivery of high quality, innovative and effective education and training in the specialist areas of research and enterprise
- Contribute to the effective operation of the research group and any associated facilities.

KEY ACCOUNTABILITIES:

Team Specific:

- Engage in subject specific research leading to the publication and/or dissemination of original work at levels of national and international excellence as a leading or contributing author
- Contribute to the research profile of the academic unit and to the REF submission of Materials research group
- Provide 02 of individual work packages within the Structured Formulation Team, via a range of research and enterprise projects under the leadership of an overall Principal Investigator (PCG).
- Act as lead investigator for medium scale research and enterprise initiatives
- Disseminate research and enterprise findings at targeted national and international conferences, including invited presentations.
- Engage with the national or regional public/cultural sectors/business, industry/professional bodies in relation to research or enterprise
- Contribute to the delivery of high quality, innovative and effective education and training in specialist areas of research and enterprise and integration of research and enterprise into teaching or training materials.
- Supervise undergraduate and masters research projects that contribute to the programme of work of the Research Fellow.
- Proactive contribution to research group/department/school plans, activities and efficient working practices
- Promote your work and represent your discipline and the work of the University internally and externally.
- Contribute to the continuous improvement of the student experience
- Effective cross working with Professional Services to support students
- Contribute to relationship management and engagement with key national or regional public/cultural sectors/business, industry/professional bodies in relation to research and/or enterprise
- Supervise undergraduate and postgraduate students
- Contribute to the general academic administrative work of the Department/School and Faculty

Generic:

- Assist the Materials Research Group in achieving the Department/School's KPIs
- Contribute to department/school plans, activities and efficient working practices
- Participate, as appropriate, in visit to schools, local community groups, public engagements and related activity

- Demonstrate a commitment to equality, diversity and inclusion through engagement with University initiatives
- Promote your work and represent your discipline and the work of the University internally and externally, and take a proactive approach to ethical, good practice

Managing Self

- Keep abreast of developments within the field and seek continuous improvement of own professional practice
- Actively participate in established professional development framework activities
- Behave in a manner which reflects the University values and creates a positive environment for work and study
- Maintain a high standard of student engagement and satisfaction
- Seek to maximise the learning outcomes of students (as appropriate)

Core Requirements

- Adhere to and promote the University's policies on Equality, Diversity and Inclusion and Information Security;
- Ensure compliance with Health & Safety and Data Protection Legislation;
- Support and promote the university's Sustainability policies, including the Carbon Management Plan, and carry out duties in a resource efficient way, recognising the shared responsibility of minimising the university's negative environmental impacts wherever possible
- Adhere to current legal requirements and best practice relating to digital content and accessibility, including Web Content Accessibility Guidelines when creating digital content.

Additional Requirements:

Any other duties commensurate with the post and grade as agreed with the Head of Department/School and the PVC of the Faculty.

KEY PERFORMANCE INDICATORS:

Performance Indicators will be established in consultation with the Head of Department/School as part of the post-holder's annual Appraisal and Professional Development Review

KEY RELATIONSHIPS (Internal & External):

Sponsors of the research (to be identified on appointment).
